26	12/26/25 21:27:10	Very good	GP was incredible with my daughter this evening. She is autistic and struggles with medical settings. He took the time to talk to her and comfort her in the waiting room before going into his room. He was so patient and kind throughout the consultation, passing no judgement on her physical and vocal stimming which was a breath of fresh air! She even warmed up to him enough to cuddle his arm at the end, which is rarity for her! All around, from start to finish, he was amazing.	Absolutely nothing!
